Tucked away in a quiet corner of one of Singapore's most prestigious districts, the luxurious houses on Duchess Avenue are at the perfect location for the family that seeks more than the condominium lifestyle. Clustered close to Holland Village and Bukit Timah, and only short distances from schools, shops and business districts, this collection of contemporary semi-detached and detached houses evoke the tranquility of Asian tropical houses.

With at least four bedrooms, family room and guest accommodation in the basic layout, there is space for every member of the family. Designed for tropical living, the rooms at ground level fully open onto a timber deck spanning the landscaped garden. Quality inclusions - large capacity washing machine, dryer, microwave, dishwasher and large-size refrigerator - help ease the housework load. A private yard gives a shady green spot where a mother can watch her children at play without worry. At all these houses, a private swimming pool beckons.
